DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on January 22, 2003 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.
2. The information disclosure statement (IDS) submitted on November 2, 2001 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Specification

3. The abstract of the disclosure is objected to because contains 2 paragraph. Correction is required. See MPEP § 608.01(b).

Drawings

4. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because component of figures are not identified and merely the figures includes a series of boxes. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-9 recite the limitation "the registration" in lines 1 of claims 1 and 8. There is insufficient antecedent basis for this limitation in the claims.

6. Claim 10 recites the limitation "the registration" in lines 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 101

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 10 is rejected under 35 U.S.C. 101 because claim 10 recites "A computer program which operates..."

Claim 10 is unacceptable and subject to a 101 rejection. Claim 10 is non-statutory because the terminology "computer program" alone has no set definition. A statutory product with descriptive material must include a positive recitation of the computer readable medium -- MPEP 2106.
